Irrigated Malting (Spring)

Map of Illinois showing county-level data for the year 2000. The map displays 102 counties, each with a numerical value. The values range from 156.7 to 219.9. The map is color-coded: green for values between 156.7 and 219.9, and white for values between 156.7 and 219.9. A circular inset highlights the central region of the state, including counties like Macoupin, Madison, and St. Louis.
