Map of Illinois showing county-level data for the variable 'POV'. The map uses a color scale from light green (low) to dark green (high). Most counties are green, with a few in light green and one in light orange. Numerical values are printed in each county. A circular inset highlights a region in the central part of the state.

County	POV Value
Adams	165.7
Albany	158.7
Alexander	152.9
Anderson	168.7
Andrew	158.8
